Second time around

Stylist **DANNA WEISS** shows how to fashion fresh new looks from vintage and recycled clothing.

RECYCLING IS ONE OF THE EASIEST WAYS to reduce our impact on the earth. And I don't just mean the kind of recycling everyone is familiar with, like bottles, cans, and ex-boyfriends. I mean vintage clothing and even recycled scraps that eco-savvy designers are increasingly using.

One person's junk is another person's treasure, as proved by the two outfits pictured here: one for day, one for a casual evening. Blending vintage items with eco-friendly new ones, they'll give you ideas for how to work gently used clothes into your wardrobe. ●

Danna Weiss is an eco life stylist and metaphysical jeweler.

cowboy boots

Vintage: 100% recycled. They just don't make 'em like they used to. These boots are in a class by themselves!
