VICTORIA BECKHAM

## SHE'S POSH — HER LEGS AREN'T!

Fashionista **Victoria "Posh Spice" Beckham** always looks so perfectly put together. But one thing that no amount of haute couture can cure is the massive amount of cellulite on her legs!

Still, for a quick fix, NYC-based celebrity stylist Danna Weiss suggests that Posh put on a pair of stockings.

Long term, "She can either

work out like a maniac or go to a spa and have all the water taken out of her legs," says Danna, referring to a treatment of vigorous massage that helps increase blood flow and reduce excess fluid in cellulite-filled areas,

Let's just hope when Posh hits the road with the Spice Girls for their reunion tour in December, she's smoothed down her stems!
